| Total | | 5 | | 7 |

Winners: Team EBG! Congrats to captain Arshad Khan and the entire team.

BC'19's assessment:

Positives:

| | |
|-----------------------|--|
| Participation | 26 golfers signed up. EBG was able to get 24 golfers – 2 BAGG members had to sit out for the tournament. Solid attendance! |
| Captain's interaction | Both captains (aided by their VC's) worked well together and accommodated the needs of the other team. Pre-tournament logistics were smooth and did not require any intervention from the club management committees. High marks setting up a smooth tournament! |
| After game hangout | Satisfying 40+ hungry golfers is a monumental task. Social committee did an excellent job in organizing and managing everybody even after challenges of an hour break between tee-offs and long rounds. It was a very successful get together enjoyed by members of both teams. There is always opportunity for improvement. Possibly consider ordering food in batches to account for groups teeing off later. Shot gun start definitely eliminates some of the scheduling complexities. |
| Incident free | Incident free tournament with no formal complaints or issues. |

Areas of Improvement:

| | |
|--------------|---|
| Cost | Paying \$73 (includes: cart and range balls) for Spring Valley is expensive. Given that 48 golfers participated options are limited without a shot gun start. Opportunity to explore courses which are willing to explore and consider scheduling the tournament in summer where days are longer. |
| Weather | Weather continues to be a challenge in 2019. Playing in wet and muddy conditions added additional time for the round as carts were limited to cart path only and winter rules were in effect (lift, clean & place) were in effect. Consider scheduling the tournament in summer where chances of rain are less. |
| Pace of play | There was no round that finished in less than 6 hours and in most cases it took 6 hours and 15 minutes (or more). Some of it can be attributed to rough playing conditions whereas others can be mitigated with formation of groups and on course time management. This is an area that requires attention by captains of both sides in future. |
